

Travis Wells
Managing Partner

Travis Wells Asked to Join PhoneSuite Incorporated Advisory Board

*Managing Partner at Unified
Communications Company Joins
Board of Advisors*

OMAHA, NE AND COUNCIL BLUFFS, IA — May 14, 2014 — Voice and Data Systems, Inc. an industry leader in unified communications, announced today that Managing Partner, Travis Wells, has been asked to join the Board of Advisors for PhoneSuite Incorporated. PhoneSuite specializes in servicing the hotel/motel industry. They have been making waves in the hotel/motel industry for years and with the addition of Wells' expertise and experienced IT/Voice executives, both companies are poised to reach even greater levels of success. The other members of this prestigious board possess a wealth of knowledge and firsthand experience in the industry.

Voice and Data Systems Inc. has always been focused on being at the forefront of innovation. Their proactive approach is based on a fundamental philosophy that it is their duty to understand and master new technologies, so they can supply their clients with a competitive edge. With a large concentration of their customers in the hotel/motel industry, it was only a matter of time before Voice and Data Systems discovered key applications that deliver massive value to their hotel/motel clients. As a thought leader, Voice and Data Systems quickly asserted

itself to a position of leadership. Mr. Wells has had regular involvement with customers on a continuing basis for well over 18 years. By pairing his technical expertise, knack for solving highly complex problems and commitment to customers he's become a rising star within the hotel/motel vertical. By joining PhoneSuite's Advisory Board, Travis will be able to share ideas, thoughts and best business practices with PhoneSuite and help tailor solutions at the manufacturer level. Without a doubt, he will be able to influence the direction and help ensure that better and better solutions continue to reach end users.

"I'm honored to have been asked to join such an impressive group," states Wells. "Their organization is so committed to developing the absolute best solutions for their end users and is proving it with their actions. Many manufacturers simply create a product that serves the majority of the market and then they leave it at that. PhoneSuite has assembled a group of Advisors that have real, feet-on-the-street experience, who understand the exact needs of their clients. I've been very pleased to see their dedication and it is great to know that as a result of my involvement, we will be able to deliver even better solutions and experiences to our customers. I'm just thrilled to be a part of something special like this."

Steve Sawtell, President of Voice and Data Systems, also had some thoughts to add. "Travis has always been an overachiever. He believes in what he does and takes it upon himself to continually seek out the best possible solutions and he stops at nothing to take care of our customers. I'm quite pleased to work alongside him and wish there were more people in our industry with his work ethic. I'm very happy for him to have earned this well-deserved recognition and cannot wait to see how his involvement enriches the lives of our customers."

ABOUT VOICE AND DATA SYSTEMS, INC.
